## U.S. DEPARTMENT OF THE INTERIOR BUREAU OF LAND MANAGEMENT Anchorage Field Office

## CATEGORICAL EXCLUSION (CX) FORM

Document No.: AK-040-CX00-029	*Lease/Serial/Case File No. AA-77835			
Proposed Action Title/Types: Noncompetitive Mineral Materia	1 Sale			
Location of Proposed Action: Sec. 5, T. 29 N., R. 58 W., Sewar	rd Maridian, Alacka			
Location of Froposed Action. Sec. 3, 1. 23 N., R. 36 W., Sewal	tu iviciidiali, Alaska			
Description of Proposed Action: The Proposed Action is to rip a of an existing rock quarry site and to transport the material over Transportation (DOT) bridge project for the village of Anvik, A Replacement Design Study Report, which was submitted by the 77835. The original mining plan, submitted in 1995, and contain and access roads. The plan was accompanied by a topographical activity would begin the summer of 2001, and would continue the	Federal Public Lands for use in an Alaska Department of laska. The project is described in the Anvik Bridge DOT, and correspondence contained within Case File AAined in the Case File, lays out the specific locations of the pit all map of the site. The proposed startup of the rock quarry			
Equipment would be staged in the village, not onsite. Fuel hand will be stored onsite. Access would be along an access road corapproximately one(1) mile long and has created approximately approximately two(2) acres of surface disturbance. The DOT p can be removed from the bottom of the existing pit and no additunlikely case that the pit needs to be enlarged, a new environment.	astructed across public lands in 1995. The access road is 2.5 acres of disturbance. The existing quarry site has roject manager has stated that all of the required rock material tional surface disturbance will be necessary. However, in the			
The rock material would be ripped with heavy equipment including bulldozers and excavators. The use of explosives is not anticipated in the removal, but may be necessary if harder material is encountered. The material will be screened in a portable screening plant and then stockpiled onsite for a period not to exceed two years. The material will be transported by truck to the public works project area within the village.				
After the rock removal phase is concluded, the site will be clear protect the public. The village and Doyon have requested that the future projects. Should a need for additional rock material arise be sold out of this pit.	he quarry site not be reclaimed as to provide a rock source for			
Applicant (if any): State of Alaska, Department of Transportation	on and Public Facilities, Northern Region, Fairbanks Alaska			
PART I - PLAN CONFO				
This Proposed Action is subject to the following land use plan:	Southwest Management Framework Plan (MFP).			
Date Plan Approved: November 1981				
The Proposed Action has been reviewed for conformance with t	his plan (43 CFR 1610.5, BLM MS 1617.3).			
<b>Remarks:</b> The Bureau of Land Management (BLM) compiled Area in 1981. The subject of mineral material sales was not deaplan encourages development of mineral resources.				

## **CATEGORICAL EXCLUSION (CX) FORM (Cont'd.)**

Document No.: AK-040-CX00-029

A. Categorical Exclusion Review. This Proposed Action qualifies as a categorical exclusion under 516 DM 2, Appendix 1 (insert CX number) or 516 DM 6, Appendix 5.4. F(10).  B. Departmental Exceptions Review. The following Departmental List of Exceptions apply to individual actions. Departmental instructions mandate that environmental documents MUST BE PREPARED for actions which may: (Mark applicable answer for each item. If "yes", prepare an EA/EIS and append this form to it.)  1. Have significant adverse impacts on public health or safety. 2. Have adverse effects on unique geographic characteristics, historic or cultural resources, park, recreation or refuge lands, wilderness areas, wild or scenic rivers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, or ecologically significant or critical areas, including those listed on the Department's National Register of Natural Landmarks. 3. Have highly controversial environmental effects. 4. Have highly controversial environmental effects. 5. Establish a precedent for future actions or represent a decision in principle about future actions with individually insignificant environmental effects. 5. Establish a precedent for future actions or represent a decision in principle about future actions with individually insignificant, but cumulatively significant environmental effects. 7. Have adverse effects on properties listed or eligible for listing on the National Register of Historic Places. 8. Have adverse effects on properties listed or leigible for listing on the National Register of Threatened Species, or have adverse effects on designated critical habitat for these species.  2. X. Have adverse effects on species listed on the List of Endangered or Threatened Species, or have adverse effects on designated critical habitat for these species.  3. Require compliance with Executive Order 11988 (Floodplain Management). Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act.  4. Part III - DECISION			PART	II - NEPA REVIEW			
B. Departmental Exceptions Review. The following Departmental List of Exceptions apply to individual actions. Departmental instructions mandate that environmental documents MUST BE PREPARED for actions which may: (Mark applicable answer for each item. If "yes", prepare an EA/EIS and append this form to it.)  1. Have significant adverse impacts on public health or safety. 2. Have adverse effects on unique geographic characteristics, historic or cultural resources, park, recreation or refuge lands, wilderness areas, wild or seen in viers, sole or principal drinking water aquifers, prime farmlands, wetlands, floodplains, or ecologically significant or critical areas, including those listed on the Department's National Register of Natural Landmarks. 3. Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks.  5. Establish a precedent for future actions or represent a decision in principle about future actions with potentially significant environmental effects.  6. Be directly related to other actions with individually insignificant, but cumulatively significant environmental effects.  7. Have adverse effects on properties listed or eligible for listing on the National Register of Historic Places.  8. Have adverse effects on species listed or proposed to be listed on the List of Endangered or Threatened Species, or have adverse effects on designated critical habitat for these species.  9. Require compliance with Executive Order 11998 (Floodplain Management), Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act.  2. X. A carl Persson  * January 26, 2001  * PART III - DECISION  I have reviewed this plan conformance and NEPA compliance record and have determined that the proposed project is in conformance with the approved land use plan and that no further environmental analysis is required. It is my decision to implement the project, as described, with the mitigation measures either identified below or stipulation(s)	A.	This P	orical Exclusion Review. ## Stipulations for Anvik Rock Sale

- 1. The trucks and equipment will operate in a safe manner, including speed limits as dictated by road conditions, to avoid collisions with local villagers and wildlife. The contractor shall be responsible for safety training for the equipment operators.
- 2. All solid waste, other than waste rock and topsoil stockpiles, will be removed from the site and properly disposed of at an approved facility. Waste rock stockpiles will be placed along the edge of the pit to be used during final reclamation. The quarry will not be required to be reclaimed after completion of this project at Ingalik, Inc's. and Doyon's request. Ingalik, Inc. and Doyon are planning continued use of the quarry for future operations.
- 3. The pit will be clearly posted with warning signs to protect the public against hazards such as high-walls or high-wall failure.
- 4. The contractor shall follow all applicable local, State and Federal laws and regulations.
- 5. No disturbance outside of the existing previously disturbed quarry or road area is authorized. Prior approval for such disturbance is required.
